A full report of the results can be found [here](#).

The Club owes a significant debt of gratitude to Gary Barwick who almost single handedly has researched the required software, set up and administered the digital AGM and has also fixed any issues that have arisen. I would like to thank him for the amount of work that he has put into this project.

We believe that digital AGM's are the way of the future. Given that our constitution prevents the use of proxies this technology provides the means for any member to vote, no matter where they are. It also allows members to vote in their own time without feeling any pressure from others in the room.

Thank you to everybody for the opportunity to be your president for this past year, it has truly been my honour.
