

Jill Wildey

I have been a coastie for 29 years, having relocated from Canberra, where I occupied various administrative positions in the public and private forum, predominantly in CSIRO and Parliament House. On retirement, I spent seven years volunteering with the NSW SES. My two daughters live in Sydney and Canberra with their respective families, including my four grandies, three aged sixteen and one nineteen.

I joined the Central Coast Bridge Club thirteen years ago, have met many wonderful like minded bridge cronies and am happily bridge addicted. I have been a dedicated committee member for three years and am always actively involved in committee meetings. I have the members' interests at heart, am a keen listener and take those opinions and thoughts to the committee. I look forward to continuing in this role.

In my other world, as most members are aware, I am Secretary of the Inner Wheel Club of Tuggerah Lakes, a local friendship and charity group. My hobbies include walking around our beautiful lake, the occasional gym class, card making, gardening, travelling and photography.
